### ATTRIBUTES RECYCLED CONTENT

Components (with recycled content)	Weight ratio	Pre-consumer	Post-consumer
MDF	22.0% - 31.5%*	85.4%	0%
HDF	12.6% - 14.4%*	43.9%	0%

\*The pourcentage of recycled content were calculated according to the weigh ratio of each of the components used in manufacturing the final product.

	Final products assembly	Weight ratio	Pre-consumer	Post-consumer
Colonial Moulding	205H	100%	32.4%	0%
(Ovolo)	205HP - Bifold	100%	31.2%	0%
Square moulding	794H	100%	25.9%	0%
Square moulding (Shaker)	794HP - Bifold	100%	25.1%	0%

Validated Eco-Declaration - Recycled Content

Methodology: on-site audit, supply chain evaluation, analysis and validation of the recycled content data according to the weight ratio of each of the components used in manufacturing the final product.

Vertima's procedure: VERT-032008-01, Second Edition.

#### SOURCING OF RAW MATERIALS

Weight ratio	Final manufacturing location
100%	Saint-Boniface, QC G0X 2L0 CANADA

Validated Eco-Declaration – Sourcing of raw materials

Methodology: on-site audit, supply chain evaluation, analysis and validation of the sourcing of raw materials data according to the weight ratio of each of the components used in manufacturing the final product. Vertima's procedure: VERT-032008-02, Second Edition.

Components	Weight ratio	Extraction locations	Transport
Eastern white pine	52.5% - 59.1%	United State (Maine, Massachusetts)	Truck
MDF	22.0% - 31.5%	Canada (QC, NB, NS) and United State (Maine)	Truck
HDF	12.6% - 14.4%	Canada (QC, NB, NS) and United State (ME, NH, VT)	Truck
Adhesives (PVAc)	1.9% - 2.9%	N/A	N/A
White primer	1.5% - 1.8%	N/A	N/A

\*All components weight ratio varies depending on the door model.

The extraction locations of raw materials have been documented for 95.5% to 96.5% of the final product components, based on weight ratio.

The data included in this Environmental Data Sheet has been provided by the client and the suppliers, who are responsible for its veracity and its integrity. Vertima follows a rigorous protocol, including an on-site audit of the factory, an audit of the manufacturer's supply chain documentation, and the analysis and validation of all supporting documents. However, Vertima cannot be held responsible for false or misleading information that may cause any loss or damage suffered, in all or in part, caused by errors and omissions relative to the data collection, compilation and/or interpretation. The analysis protocol used by Vertima is available on request.

PANEL DOORS

## **ENVIRONMENTAL IMPACTS**

### **ENVIRONMENTAL PRODUCT DECLARATION (EPD)**

Product-specific EPD, ISO 14025:2006, Type III

Milette Doors performed a life cycle assessment (LCA) and published an environmental product declaration (EPD) for its Panel Doors 794 H. This project was conducted in collaboration with Vertima and Ellio and audited by the operator of program, CSA Group.

Dataranaa DCD	Interior Architectural Wood Door Leaves v2. ASTM International, March 2015 to February 2020, UNCPC 31600.			
Declared Unit	Scope of the LCA	Reference service life	Period of validity	
1 Panel Door	Cradle-to-Gate	N/A	March 2017 to March 2022	

#### Table of environmental impacts for 1 Panel Door 794H

Impact categories	Unit	Results for 794H	
Global warming potential	kg CO <sub>2</sub> eq	20.5	
Acidification potential	kg SO <sub>2</sub> eq	0.19	
Eutrophication potential	kg N eq	0.040	Type III Environmental Product Declaration
Smog creation potential	kg O <sub>3</sub> eq	2.97	developed in accordance with ISO 14025:2006
Ozone depletion potential	kg CFC-11 eq	9.53.10 <sup>-7</sup>	
Total primary energy consumption	Unit	Results for 794H	
Non-renewable fossil	MJ	361	
Non-renewable nuclear	MJ	76.2

### **INGREDIENTS AND EMISSIONS (CONTINUED)**

#### **VOLATILE ORGANIC COMPOUNDS (VOCs)**

The paint and all adhesives are applied during the manufacturing of Panel Doors. In the category of products presented below, the value refers to the VOC content of paint and adhesives in their liquid state.

Adhesives			
Manufacturer	Туре	Product name	VOC content
Dural Division Multibond inc.	Adhesive	G-2408	3.0 g/L
Dural Division Multibond inc.	Adhesive	G-2424	1.6 g/L
Dural Division Multibond inc.	Adhesive	G-2449	1.9 g/L

Paints

Manufacturer	Туре	Product name	VOC content				
Akzo Nobel	Water-based primer	White Aquaprime 650-0006	30.0 g/L				

Validated Eco-Declaration – Emissions and Volatile Organic Compounds (VOCs) Methodology: validation of documents attesting VOCs emissions. Vertima's procedure: VERT-032009-02, Second Edition.

#### FORMALDEHYDE

Product components	Compliance	Formaldehyde content
HDF	CARB phase 2	< 0.13 ppm
MDF	CARB phase 2	< 0.1 ppm

Validated Eco-Declaration-Emissions and formaldehyde

Methodology: validation of the documents attesting the methodology and results of emissions general evaluation and formaldehyde.

Vertima's procedure: VERT-032009-02, Second Edition.

### **TECHNICAL PERFORMANCES**

#### WARRANTY

Our doors requires particular attention and specific care. All doors are constructed with a finger-jointed pine core and a layer of superior quality veneer for more strength and durability. Wood is a natural product, and your door could be subject to contraction and expansion when exposed to varying temperature and humidity fluctuations. For these reasons, our warranty is conditional with the procedures described in: http://www.portesmilette.com/Content/Documents/en/Guides/Warranty.pdf

## MANUFACTURER'S ENVIRONMENTAL MANAGEMENT PROGRAM

#### MANUFACTURER'S COMMITMENT

Always in order to meet the expectations of their clients, who are at the heart of each of their actions and decisions, Milette Doors pays particular attention to the choice of their suppliers. Milette Doors takes time to validate whether their values and goals match those of Milette Doors. Thus, they ensure that the wood used for each door they make comes from renewable resources.

Milette Doors bets on the reuse of materials and products to eliminate their need for fossil energy for production, to make carbon neutral emissions of greenhouse gases. Milette Doors also contributes to the reduction of raw materials and waste through the recovery of plastic packaging waste, wood and glass particles, treatment and processing of waste solvents as well as the maximum use and recycling Of paper from entirely recycled fibers.

The data included in this Environmental Data Sheet has been provided by the client and the suppliers, who are responsible for its veracity and its integrity. Vertima follows a rigorous protocol, including an on-site audit of the factory, an audit of the manufacturer's supply chain documentation, and the analysis and validation of all supporting documents. However, Vertima cannot be held responsible for false or misleading information that may cause any loss or damage suffered, in all or in part, caused by errors and omissions relative to the data collection, compilation and/or interpretation. The analysis protocol used by Vertima is available on request.
